Efficiently Create and Process Memberships

Centralize your data and get a 360 degree view of your patrons.

- Fully integrated membership support.
- New, Renewal, and Gift Memberships are supported.
- View all admission and membership information from a single patron account.

Access Control - Know Your Patrons & Grow Your Customer Base!

Account-based, encoded admission issuance with ownership and usage tracking from point of sale to point of use.

- Bar-coded mobile, print-at-home, thermal ticket, and season membership card options.
- Ticket fraud detection alerts in real-time.
- Admission utilization reporting allows you to better engage your customer base.

Empower Your Patrons, Groups, and Corporate Accounts

Easy to use online services that put customers, groups, and corporate account holders in control of their ticket ownership.

- Group Ticket Portal eliminates "Group Leader" overhead by allowing group members to easily secure tickets online.
- Transfer tickets to friends, family, group members, and colleagues with just a few clicks.
- Automated new customer account creation for recipients of online ticket transfers and resale.
