

TR Commencement represents the next generation in commencement technology and service.

Control student eligibility, track attendance and manage high-demand ticket distribution. Operating as a stand-alone solution or as a complement to your existing ticket services, our platform provides both students and guests a fully-branded online experience.

Enjoy Custom Commencement Options and a Fully-Branded Web Portal

TicketReturn's Commencement solution offers a fully-branded student website featuring several customization options

- Commencement ticketing rules unique to each event
- Multiple ceremony options available at the same time
- Links to school store for purchase of diplomas, photos, programs, yearbooks and memorabilia
- Delivery options including thermal tickets, commencement cards, print-at-home and mobile
- Supports single sign-on authentication (SSO)
- Supports ticketing in the box office, online or combination of both
- Social media integration

Automated Student Eligibility with Secure, Flexible Administrator Control

TR Commencement offers secure integration with your existing university registrar's system, allowing your staff to determine student commencement eligibility by year, semester or department.

- Student eligibility updated automatically based on your settings
- Secure student authentication in compliance with FERPA regulations
- Customized student data feeds to support unlimited eligibility options
- Box office and online accounts created from university enrollment records
- Online distribution options customized by department
- Configure Student and family guest ticket allotments
- Includes support for custom lotteries when tickets go unused and/or strict capacity rules are put in place
